

DENNIS COLLINS, ROBERT R. MILL, AND MICHAEL MÖLLER. 2003. Species separation of *Taxus baccata*, *T. canadensis*, and *T. cuspidata* (Taxaceae) and origins of their reputed hybrids inferred from RAPD and cpDNA data. *American Journal of Botany* 90(2): 175-182.

APPENDIX. Sources of *Taxus* plant materials representing the species and hybrids used in this study. (Arnold: Arnold Arboretum, Jamaica Plain, Massachusetts, USA; Bedgebury: Bedgebury Pinetum, Kent, UK; NYBG: New York Botanical Garden, Bronx, New York, USA; RBGE: Royal Botanic Garden Edinburgh, Edinburgh, UK.) Hybrids are of cultivated origin, with provenance indicating nursery or garden source. (Some nurseries now defunct.) The numbers in the first column are the sample identification numbers, used throughout the paper.

No.	Taxa	Source and accession no. ¹	Provenance ²
1	<i>T. baccata</i> L.	Bedgebury 00.14.0090	Kent, UK
2	<i>T. baccata</i> L.	RBGE 19699295F	Lothian, UK
